

In response to the respiratory illness caused by Coronavirus (COVID-19), we would like to assure the public that we are following recommended guidelines provided by the Centers for Disease Control (CDC) and Prevention and local health agencies.

The CDC has advised people to take precautions in light of the coronavirus outbreak and that the best way to prevent illness is to avoid being exposed to this virus. Effective immediately, we will be conducting business by telephone and email when possible. If an office visit is necessary, we are limiting visitors to two at a time in the office.

Preneed Planning will be postponed until further notice.

Funeral services may be held at the cemetery as graveside services only and limited to immediate family members, provided all attendees comply with social distancing protocol set forth by the CDC. We ask that attendees then stand back at a minimum distance of 50' from the grave so groundcrew can enter the area, lower the casket and finish the grave backfill.

Persons who have been diagnosed with, or have had contact with anyone who has been diagnosed with the coronavirus, and persons with apparent symptoms of COVID-19, such as fever, severe cough, or shortness of breath are asked not to attend services, or enter the office to make arrangements in person.

We are sorry for this disruption and encourage you to contact us if you have any questions or need to make funeral arrangements.

**Please note that the situation is ever changing. If we feel any extra precautions or additions are appropriate, we will make them known immediately.*
